<sup>1</sup> The paging of this appendix and of the early part of part 2 of the testimony is the same (27-333). There is no letter "A" preceding the page number in either case. However, for the convenience of the researcher, appendix page numbers are preceded, in this index, with the roman capital A.

The letter "A" in small caps, and the lower case "a" indicate appendixes in the Scope series of testimony, on the pages themselves as well as in the index.

<sup>2</sup> This was a legal and technical document with a detailed table of contents and therefore not indexed.
